Introduction

This is the 2004 update of the directory of Canada's Treatment Programs for Men Who Abuse Their Partners. It is one of a series of directories prepared by the National Clearinghouse on Family Violence under the Government of Canada Family Violence Initiative.

This edition provides a listing of 205 treatment programs that address the needs of men who abuse their partners. The services are listed by province and territory, east to west, and alphabetically by town or city within each province or territory.

Although most treatment programs are open to all abusive men, some evaluate candidates to determine whether they may benefit from treatment and to allow program personnel to set conditions for successful treatment. Many of the programs listed use multiple approaches (for example, individual counselling, support groups, anger management workshops) for treatment. Please note that waiting lists are common when seeking treatment for assaultive behaviour.

Each listing identifies the organization with which the program is affiliated and indicates any referral requirements. The listings also indicate whether the program charges fees and/or provides support materials. Bilingual programs (that is, programs that offer services in English and French) are marked with a "B". Programs that offer services in a language other than English or French are marked with an "L" and the languages used are listed. For more on the symbols used in this directory, see p.3.

Some listings include a toll-free number, which is generally accessible only within the province or territory. However, the toll-free

Introduction

Voici la mise à jour de 2004 du *Répertoire* canadien des programmes de traitement pour les hommes violents envers leur conjointe. Il fait partie d'une série de répertoires préparés par le Centre national d'information sur la violence dans la famille, dans le cadre de l'Initiative de lutte contre la violence familiale lancée par le gouvernement du Canada.

La présente édition renferme une liste à jour de 205 programmes de traitement qui répondent aux besoins des hommes violents envers leur conjointe. Les services sont énumérés par province et territoire, d'est en ouest, et, dans chaque province et territoire, dans l'ordre alphabétique des municipalités et des villes.

Même si la plupart des programmes de traitement sont accessibles à tous les hommes violents, certains programmes évaluent le client pour déterminer s'il peut bénéficier du traitement et pour permettre au personnel du programme d'établir les modalités qui assureront la réussite de l'intervention. Nombre des programmes énumérés font appel à de multiples méthodes de traitement (par exemple, counselling individuel, groupes de soutien, ateliers sur la maîtrise de la colère). Veuillez prendre note que les listes d'attente sont fréquentes dans le cas du traitement d'un comportement violent.

Chaque inscription indique le type d'organisation à laquelle le programme est affilié et les conditions de renvoi. Elle indique également si le programme exige des frais et s'il fournit ou non de la documentation de soutien. Les programmes bilingues (c'est-à-dire qui offrent des services en français et en anglais) sont indiqués par la lettre « B ». Les programmes qui dispensent des
